

Canvas Golden Sample

Positioned text and images (subset-spec §2.8)

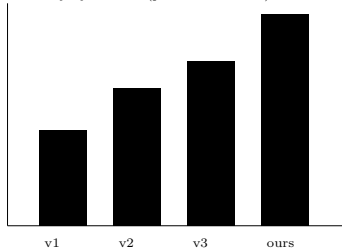

Beamer Editor Team

2026-07-10

Experimental results

Accuracy improved by **8.4 points** over the baseline, while latency stayed within budget.

Accuracy by method (placeholder chart)

Discrete font sizes

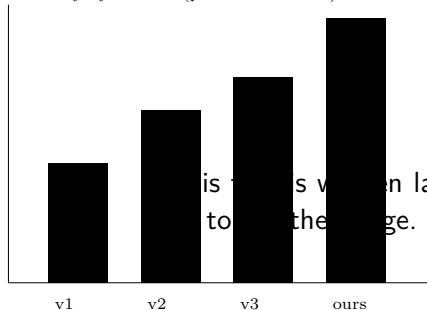

Large headline text across the top

- ▶ Small bullet one
- ▶ Small bullet two

A footnote-sized annotation column on the right, wrapped to the box width.

Z-order follows source order

Accuracy by method (placeholder chart)

is placed v3 later, so it sits
to the right.

Intentional overflow

This box intentionally overflows the body area on both sides
